

Website Audit Report

COMPLETE LIVE WEBSITE INSPECTION & VISUAL AUDIT REPORT

This report provides a deep-dive analysis of eight deployed projects, evaluating their business purpose, UI/UX excellence, technical implementation, and commercial value. Prepared for use as a premium portfolio resource.

1. DNA Repcom Lab

LIVE URL: dna-repcom-lab.vercel.app **INDUSTRY TYPE:** Academic Research / Biotechnology

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** A dedicated research laboratory website for the DNA Repair & SUMOylation signaling lab.
- **Business:** Academic research institution under NUCSER, NITTE University.
- **Target Users:** Scientists, researchers, prospective students, and funding agencies.

B. PROBLEM SOLVED

Provides a professional digital presence for a high-level research lab, facilitating the sharing of publications, research focus areas, and team recognition which is critical for

academic networking and funding.

C. MAIN FEATURES IDENTIFIED

- Comprehensive Research focused sections (Breast Cancer, DNA Repair).
- Detailed Publication List.
- Team/People profile cards.
- About PI (Principal Investigator) section.
- Contact information for collaborative research.

D. UI/UX OBSERVATION

- **Visual Style:** Clean, scholarly, and professional. Uses a blue/white palette standard for medical/biotech.
- **Trust Building:** Affiliation with NITTE University clearly visible. Professional photos of the team.
- **User Friendliness:** Easy navigation through academic sections.

E. MOBILE RESPONSIVENESS NOTES

Highly suitable for mobile; layout adjusts cleanly for reading research papers and team bios on the go.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** React/Vite (likely).
- **Hosting:** Vercel.
- **Performance:** Extremely fast load times due to static asset optimization.

G. BUSINESS VALUE FOR CLIENT

Establishes authority in a niche scientific field, helping attract global research partners and high-caliber students.

H. DEVELOPER CAPABILITY DEMONSTRATION

Demonstrates ability to handle content-heavy sites with a clean, organized hierarchy and professional aesthetic.

2. Yes Gas Agency

LIVE URL: yesgasservice.in **INDUSTRY TYPE:** Home Services / Gas Stove Repair

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** An on-demand service booking platform for gas stove repairs.
- **Business:** Local service provider in Hyderabad.
- **Target Users:** Homeowners and commercial kitchen operators.

B. PROBLEM SOLVED

Solves the urgent need for reliable, same-day gas stove repair services with transparent pricing and warranty.

C. MAIN FEATURES IDENTIFIED

- Quick “Call Now” and WhatsApp CTA buttons.
- Service categories (Home, Commercial, Hob).
- 2–4 hour arrival promise.
- 30-day service warranty.
- Customer testimonials/trust indicators.

D. UI/UX OBSERVATION

- **Visual Style:** High-contrast, action-oriented. Uses warm tones (orange/red) to evoke urgency and service.
- **Lead Conversion:** Excellent placement of floating contact buttons. “Book Service Now” is prominent.
- **Trust Building:** “Certified Technicians” and “30-day warranty” badges.

E. MOBILE RESPONSIVENESS NOTES

Optimized for mobile users who are likely in a “distress” situation (broken stove) and need quick contact.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** Modern HTML/CSS/JS or React.
- **Hosting:** Independent hosting (.in domain).
- **Performance:** Optimized for mobile data speeds.

G. BUSINESS VALUE FOR CLIENT

Direct lead generation tool. The focus on instant contact significantly lowers the barrier for customers in need of urgent repair.

H. DEVELOPER CAPABILITY DEMONSTRATION

Shows expertise in Conversion Rate Optimization (CRO) and building high-intent service websites.

3. Mohan Residency

LIVE URL: real-estate-mohan-residency.vercel.app INDUSTRY TYPE: Real Estate / Luxury Housing

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** A premium property showcase and lead generation landing page.
- **Business:** Real estate development/sales for Sector 73, Noida.
- **Target Users:** Home buyers, property investors.

B. PROBLEM SOLVED

Simplifies the property discovery process by providing clear pricing (₹40L+), location benefits, and luxury features in one sleek interface.

C. MAIN FEATURES IDENTIFIED

- Price highlighting (₹40 Lakhs).
- Luxury amenity icons (Gym, Pool, Security).
- Floor plan visualizations.
- Lead capture form for site visits.

D. UI/UX OBSERVATION

- **Visual Style:** Elegant, high-end, and minimalist. Uses high-quality architectural renders.
- **Trust Building:** Focus on location transparency and project scale.
- **Lead Conversion:** Sticky “Inquire Now” features.

E. MOBILE RESPONSIVENESS NOTES

Responsive layout ensures property photos and pricing remain the primary focus on small screens.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** React/Next.js.
- **Hosting:** Vercel.
- **Performance:** Fast rendering of high-resolution images.

G. BUSINESS VALUE FOR CLIENT

Reduces sales cycle by pre-qualifying leads with transparent pricing and detailed amenity lists.

H. DEVELOPER CAPABILITY DEMONSTRATION

Demonstrates ability to build premium-feeling, “expensive” designs that align with luxury brand values.

4. DigiQlik

LIVE URL: digiqlik.com **INDUSTRY TYPE:** Digital Agency / Marketing

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** Full-service digital marketing and creative agency portfolio.
- **Business:** Tech-focused consultancy and creative production house.
- **Target Users:** B2B clients, startups, brands seeking growth.

B. PROBLEM SOLVED

Provides a “one-stop-shop” for brands needing to modernize their digital presence, from web design to video production.

C. MAIN FEATURES IDENTIFIED

- Dynamic service cards (Video Production, SMM, PPC).
- AI Chatbot / “Ask Me Anything” widget.
- Multi-channel contact options (WhatsApp, Bot, Form).
- Modern “Glassmorphism” UI elements.

D. UI/UX OBSERVATION

- **Visual Style:** Cutting-edge, vibrant, and energetic. Uses gradients and smooth transitions.
- **Trust Building:** Showcase of diverse service offerings and modern tech integration.
- **User Friendliness:** Highly interactive; feels “alive” due to micro-animations.

E. MOBILE RESPONSIVENESS NOTES

Perfectly adapted; interactive elements (like the bot) are easy to use on mobile touchscreens.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** Modern JS Framework with heavy use of CSS transitions.
- **APIs:** Integrated chatbot and WhatsApp API.
- **Performance:** Balanced despite the heavy visual load.

G. BUSINESS VALUE FOR CLIENT

Positions the agency as a tech leader, making them attractive to modern brands seeking innovation.

H. DEVELOPER CAPABILITY DEMONSTRATION

Demonstrates advanced UI/UX skills, including integration of interactive AI elements and complex styling.

5. GasXpert

LIVE URL: gasxpert.in INDUSTRY TYPE: Home Services / Technical Repair

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** Professional gas stove and appliance repair service.
- **Business:** Technical service agency by Mahipal Bishnoi.
- **Target Users:** Residents of Hyderabad & Secunderabad.

B. PROBLEM SOLVED

Provides reliable, safe, and professional technical repair for hazardous gas appliances, solving safety concerns for households.

C. MAIN FEATURES IDENTIFIED

- No-Fix No-Fee policy (Huge trust factor).
- Same-day burner cleaning and ignition fix.
- Copper pipeline installation.
- Clear “Call +91” CTA.

D. UI/UX OBSERVATION

- **Visual Style:** Industrial, clean, and utilitarian.
- **Trust Building:** Heavy emphasis on the “No-Fix No-Fee” promise.
- **Lead Conversion:** Direct-to-call focus.

E. MOBILE RESPONSIVENESS NOTES

Extremely lightweight and fast on mobile, prioritizing the contact number.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** React (Developer credits: Vikash Dubey).
- **SEO:** Heavily optimized meta tags for local Hyderabad search.
- **Analytics:** GTM and Google Analytics integrated.

G. BUSINESS VALUE FOR CLIENT

Dominates local search results for gas repair in specific regions, driving consistent daily leads.

H. DEVELOPER CAPABILITY DEMONSTRATION

Shows ability to build SEO-optimized, performant local business sites that rank and convert.

6. RankRise USA

LIVE URL: rankriseusa.com INDUSTRY TYPE: IT Consultancy / Digital Marketing

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** International digital growth agency and IT consultancy.
- **Business:** Scalable IT solutions and SEO services.
- **Target Users:** Businesses looking to scale in the USA and globally.

B. PROBLEM SOLVED

Bridging the gap between technical IT infrastructure and marketing-driven growth.

C. MAIN FEATURES IDENTIFIED

- SEO Audit tools / Lead magnets.
- IT Consultancy services.
- Clean, white-label professional design.
- Global contact availability.

D. UI/UX OBSERVATION

- **Visual Style:** Corporate, trust-centric, and expansive.
- **Professionalism:** High-quality icons and consistent branding.
- **CTA Placement:** Strategic “Get a Quote” placements.

E. MOBILE RESPONSIVENESS NOTES

Clean navigation menu; easy to read long-form service descriptions on mobile.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** React (Developer credits: Vikash Dubey).
- **SEO:** Advanced Google Site Verification and GTAG integration.
- **Performance:** Fast core web vitals.

G. BUSINESS VALUE FOR CLIENT

Establishes a high-authority brand image necessary for competing in the competitive US IT market.

H. DEVELOPER CAPABILITY DEMONSTRATION

Demonstrates expertise in enterprise-grade consultancy sites and global SEO standards.

7. TechForex

LIVE URL: techforex.in INDUSTRY TYPE: Fintech / Forex Solutions

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** Specialized technology solutions for Forex traders and brokers.
- **Business:** Fintech SaaS / Tools provider.
- **Target Users:** Traders, brokers, financial enthusiasts.

B. PROBLEM SOLVED

Provides the technological “edge” needed for high-frequency forex trading and broker management.

C. MAIN FEATURES IDENTIFIED

- High-density information layout.
- Modern typography focus.
- Financial tool integrations (likely charts/calculators).

D. UI/UX OBSERVATION

- **Visual Style:** Modern, tech-heavy, and precise.
- **Professionalism:** Uses sophisticated font stacks (Inter, Space Grotesk) to convey precision.
- **User Friendliness:** Aimed at power users.

E. MOBILE RESPONSIVENESS NOTES

Handles complex data and financial layouts well on smaller screens.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** React/Vite.
- **Assets:** Heavy use of optimized WebP images for performance.
- **Design:** Custom-tailored typography and icons.

G. BUSINESS VALUE FOR CLIENT

Builds the “high-tech” image required for trust in the financial technology sector.

H. DEVELOPER CAPABILITY DEMONSTRATION

Shows ability to build complex, data-driven Fintech interfaces with superior typography and styling.

I. SCREENSHOT REFERENCES

8. Mobixo

LIVE URL: mobixoapp.online INDUSTRY TYPE: E-commerce / Electronics

A. BUSINESS PURPOSE ANALYSIS

- **What is it?** Trusted online store for factory-sealed mobile phones.
- **Business:** B2C e-commerce platform.
- **Target Users:** Indian consumers looking for original smartphones with warranty.

B. PROBLEM SOLVED

Solves the “trust gap” in online mobile purchases by providing original, factory-sealed products with manufacturer warranty.

C. MAIN FEATURES IDENTIFIED

- Product catalogs with detailed specs.
- 100% original product guarantee badges.
- WhatsApp support integration.
- Mobile-first shopping experience.

D. UI/UX OBSERVATION

- **Visual Style:** Friendly, clean, and e-commerce focused.
- **Trust Building:** Prominent mention of “Factory-Sealed” and “Manufacturer Warranty”.
- **Lead Conversion:** Easy add-to-cart and contact flows.

E. MOBILE RESPONSIVENESS NOTES

Native-app-like feel on mobile browsers, making shopping seamless.

F. TECHNICAL IMPLEMENTATION ANALYSIS

- **Frontend:** React (likely built with Lovable.dev as per OG tags).
- **Hosting:** Modern edge hosting.
- **Performance:** Optimized image delivery for fast product browsing.

G. BUSINESS VALUE FOR CLIENT

A scalable digital storefront that competes with major marketplaces by focusing on niche trust and warranty.

H. DEVELOPER CAPABILITY DEMONSTRATION

Demonstrates ability to build trustworthy, clean, and functional e-commerce platforms.

I. SCREENSHOT REFERENCES
